

Vision: Our vision is to enhance our work as a hub for families; a place where they can come to receive services, create community and develop the gifts and talents each possess. Our three core programs of Early Education & Youth Development, Health & Wellness for the Aging, and Adult Education touch the needs of different generations and alleviate the struggles they may experience at each stage of life.

Impact: When Mercy Neighborhood Ministries of Philadelphia was developed by the Sisters of Mercy who saw the needs of the community, their intent was to establish a program that could be replicated in poor neighborhoods throughout Philadelphia. Today, we work to create a better world for our families as we bridge the digital divide, offer programs for at risk youth, and provide a safe place for those who need care. We hope that one day, this dream will become a reality as we continue our outreach to those who need it the most and are heard the least.

Board of Directors
